

VITTORIA DRAGO

ITALIAN ARTIST PRINTMAKER

CURRENTLY LIVING AND WORKING IN BARCELONA

Vittoria Drago was born in 1981 Bergamo, Italy. She currently resides in Barcelona and occasionally lives and works between Spain and Italy.

She graduated from the Academy of Fine Arts in 2005 in painting and restoration, attending a year at the Polytechnic of Fine Arts in Valencia (Spain). Being a polyhedric artist, she switches amongst different means of visual expression. She loves the world of printing and engraving, especially hand-made graphics, which she specialised in Giorgio Upiglio's Stamperia in Milan. She attended courses at the KAUS in Urbino and at the Art Print 74/b in Milan. Part of her work comes from the exploration of different printing techniques, which she investigates in new and unconventional ways. The spontaneity with which she tests their and her boundaries, leads her to experience in complete freedom the infinite possibilities that contemporary graphics can offer.
